

Remediary Option with a Progressive Approach

American mah jongg is a complex game. Students who have a love for games, especially card games, typically learn how to play the game quickly. Students who don't play games tend to have a longer and steeper learning curve.

If any of your students are overwhelmed playing the game, consider sharing a progressive approach to the categories on the card. Recommend that they start playing just the Consecutive Run category because it is the most flexible category on the card. When they are comfortable with that category, add another. Here is the recommended progression:

Consecutive Run
Like Numbers
369
Evens
Odds
Year
Winds-Dragons
Addition
Quints
Singles-Pairs

Be sure to follow up with these students to encouragement them through their journey to master the card.

If you have any questions or concerns, feel free to call me.

May all your picks be keepers,

Michele Frizzell
